## A. Subject of the Contract and Underlying

### 1. Power

At the EEX OTF, financial power futures can be traded:

#### 1.1 Underlying

Delivery and acceptance of power with a constant output of 1 MW into the maximum voltage level of the corresponding market area during the delivery time on every delivery day throughout the delivery period.

#### 1.2 Market areas/reference contract

1.2.1 Currently not available

1.2.2 Power Futures with Financial Fulfilment

Power Futures with financial settlement can be traded for the following market areas:

- Germany/Austria (EEX German/Austrian Power Base OTF Futures).

#### 1.3 Delivery time

The delivery time comprises the following days and hours in the delivery period of the corresponding contract:

1.3.1 Base

00:00 to 24:00 for all days of the week

1.3.2 Peak – currently not offered

08:00 to 20:00 for all days from Monday to Friday

#### 1.4 Delivery period/time period

Delivery periods for the respective market area are: months, quarters and years.

1.4.1 Currently not available

1.4.2 Power Futures with financial fulfilment

- EEX German/Austrian Power Base Month/Quarter/Year OTF Futures

## 1.5 Contract volumes and minimum lot size

- Contract volumes:  
The contract volume is established on the basis of the number of delivery hours (h) during the delivery period multiplied by the constant output specified in the respective reference contract (MW). The maximum power volume per day during the delivery period is usually 24 MWh or 25 MWh or 23 MWh upon the change from and to daylight savings time.
- Minimum lot size:  
1 contract or a multiple thereof

## 1.6 Tradeable maturities

At a maximum, the following maturities can be traded at the EEX OTF:

- Month Futures:
  - the current and the next 9 months
- Quarter Futures
  - the respective next 11 full quarters
- Year Futures
  - the respective next 6 full years

The exact number of the tradeable maturities is specified by the EEX Management Board of the Exchange and announced before their introduction.

## 2. Natural Gas

### 2.1 Underlying

Delivery or acceptance of delivery of natural gas in accordance with the respective valid terms and conditions of the Market Area Manager or Transmission System Operator of the concerned market areas, as the case may be, with a constant output of

- 1 MW (ETF, CEGH VTP, CZ VTP, PSV, THE, TTF, ZTP),
- 1 MWh/day (PEG, PVB) and
- 1,000 therm/day ( $\approx 29.3071$  MWh/day) (NBP, ZEE),

respectively, during the delivery time of any given delivery day of the delivery period at the respective virtual trading point.

### 2.2 Market Areas

- CEGH VTP – operated by Central European Gas Hub AG in Austria;
- CZ VTP – operated by NET4GAS in the Czech Republic;
- ETF – operated by Energinet.dk in Denmark;
- NBP – operated by National Grid in Great Britain;
- PEG – operated by GRTgaz and Teréga in France;
- PSV – operated by Snam Rete Gas in Italy;
- PVB – operated by Enagas in Spain;
- THE – operated by Trading Hub Europe GmbH for Germany;
- TTF – operated by Gasunie Transport Services B.V. in the Netherlands;
- ZEE – operated by Fluxys in Belgium;
- ZTP – operated by Fluxys in Belgium.

### 2.3 Delivery Periods and Delivery Time

The delivery periods with the respective delivery times for the respective market area may be:

Month: delivery time from 06:00<sup>1)</sup> of each delivery day of the delivery month until 06:00<sup>1)</sup> of the following calendar day;

Quarter: no delivery but cascading according to Sect. D.2;

Season<sup>2)</sup>: no delivery but cascading according to Sect. D.2;

Year: no delivery but cascading according to Sect. D.2

<sup>1)</sup> All times in CE(S)T.

<sup>2)</sup> Season comprises either the months October to March (Winter Season) or the months April to September (Summer Season).

## 2.4 Tradable Delivery Periods

### 2.4.1 Currently not available

### 2.4.2 Natural Gas Futures with optional physical fulfilment

- EEX CEGH VTP Natural Gas Month/Quarter/Season/Year OTF Futures<sup>1)</sup>
- EEX CZ VTP Natural Gas Month/Quarter/Season/Year OTF Futures<sup>2)</sup>
- EEX ETF Natural Gas Month/Quarter/Season/Year OTF Futures<sup>1)</sup>
- EEX NBP Natural Gas Month/Quarter/Season/Year OTF Futures<sup>1)</sup>
- EEX PEG Natural Gas Month/Quarter/Season/Year OTF Futures<sup>1)</sup>
- EEX PSV Natural Gas Month/Quarter/Season/Year OTF Futures<sup>1)</sup>
- EEX PVB Natural Gas Month/Quarter/Season/Year OTF Futures<sup>2)</sup>
- EEX THE Natural Gas Month/Quarter/Season/Year OTF Futures<sup>1)</sup>
- EEX TTF Natural Gas Month/Quarter/Season/Year OTF Futures<sup>1)</sup>
- EEX ZEE Natural Gas Month/Quarter/Season/Year OTF Futures
- EEX ZTP Natural Gas Month/Quarter/Season/Year OTF Futures

<sup>1)</sup> Optional physical fulfilment applies as of 1 April 2023 for all delivery periods (Month, Quarter, Season, Year), that start on 1 April 2023. Until then all delivery periods must still be physically settled.

<sup>2)</sup> Expected to be available for trading as of 8 May 2023.

## 2.5 Contract Volume and Minimum Lot Size

### ▪ Contract volume:

The contract volume is calculated by multiplying the number of delivery days in the delivery period with the quantity to be delivered daily. This quantity generally amounts to 24 MWh. In all market areas other than PSV, this quantity amounts to 23 MWh on the day of the switch from winter time to summer and 25 MWh on the day of the switch from summer time to winter time.

### ▪ Minimum lot size:

- 1 contract or a multiple thereof (all contracts with the exception of PVB contracts),
- 10 contracts or a multiple thereof (PVB)\*.

\* All transactions in EEX PVB Natural Gas Futures that are not multiples of 10 contracts, respectively, will be canceled by the Management Board of the Exchange.

The Management Board of the Exchange is entitled to reduce the specified minimum lot sizes. It shall publish its decision.

## 2.6 Tradable Maturities for Futures

At maximum the following maturities can be traded at EEX:

### 2.6.1 Month Futures

- The respective next 6 full months (all contracts with the exception of EEX TTF Natural Gas Month OTF Futures),
- The respective next 12 full months (EEX TTF Natural Gas Month OTF Futures)\*,

\* All transactions in EEX TTF Natural Gas Month OTF Futures that would exceed the admissible number of consecutive delivery months will be cancelled by the Management Board of the Exchange. For instance, a transaction on the next 13 delivery months (M+13) would exceed the admissible number of “the respective next full 12 months” and will therefore be cancelled.

### 2.6.2 Quarter Futures

- The respective next 11 full quarters (EEX TTF Natural Gas Quarter OTF Futures),
- The respective next 7 full quarters (all other EEX Natural Gas Quarter OTF Futures).

### 2.6.3 Season Futures

- The respective next 6 full seasons

### 2.6.4 Year Futures

- The respective next 6 full calendar years

The exact number of the tradable maturities is determined by the Management Board of the Exchange and announced before implementation.

## B. Pricing and price changes

### 1. Euro Denominated Products

Pricing in EUR per

- MWh to the second decimal place (EEX Power OTF Futures);
- MWh to the third decimal place (products in natural gas except EEX NBP and ZEE Natural Gas OTF Futures).

Minimum price change:

- EUR 0.01 per MWh
- EUR 0.005 per MWh<sup>1</sup> (EEX Natural Gas OTF Futures except EEX NBP and ZEE Natural Gas OTF Futures)

The minimum price change per contract is based on the factor of the minimum price change per unit and contract volume or the number of delivery hours.

### 2. GBP Denominated Products

Pricing in

- GBP Pence (GBp) per therm to the third decimal place (EEX NBP and ZEE Natural Gas OTF Futures)

Minimum price fluctuation:

- GBp 0.005 per therm<sup>1</sup> (EEX NBP and ZEE Natural Gas OTF Futures)

---

<sup>1</sup> For Trade Registration, the Minimum Price Fluctuation is EUR 0.001 per MWh and GBp 0.001 per therm, respectively.

## C. Last Trading Day

### 1. Currently not available

### 2. Power Futures with Financial Settlement

The following are the last trading days for the

- **Month Future:** The day on which the hourly auction/s for the last delivery day of the delivery period is/are carried out at the spot market. Trading ends at the time at which the submission of bids for the hourly auction/s of the spot market ends on that day (usually 12:00 p.m.).
- **Quarter/Season/Year Future:** The third Exchange Day before the beginning of the delivery period.

If one of the above-mentioned last trading days is not an EEX Exchange Day, the preceding Exchange Day is the last trading day.

### 3. Futures on Natural Gas

The Last Trading Day of the:

- **Month Future** is two Exchange Days before the first delivery day of the delivery month,
- **Quarter/Season/Year Future** is the third Exchange Day before the beginning of the delivery period. If this day does not correspond to the third ECC Business Day prior to the start of the Delivery Period, the last Trading Day shall be this third ECC Business Day prior to the start of the Delivery Period.

## D. Fulfilment

### 1. General Provisions

#### 1.1 Financial Fulfillment

Billing and payment in connection with the fulfillment of futures as well as payment of option premiums shall be effected between the Clearing Members and ECC AG in accordance with more detailed provisions in the Clearing Conditions. Billing and payment to Non-Clearing Members and own customers shall be the responsibility of the responsible Clearing Member; billing and payment of Non-Clearing Members to their customers shall be the responsibility of the Non-Clearing Members.

#### 1.2 Physical Fulfillment

Delivery and acceptance of delivery shall be effected directly between the respective Settlement Entity of ECC and the respective EEX OTF Participant in accordance with more detailed provisions in the Clearing Conditions; delivery and acceptance between an EEX OTF Participant and its customer shall be the responsibility of the EEX OTF Participant.

### 2. Cascading

For the following Future contracts longer maturities cascade into corresponding shorter maturities:

- Power Futures
- Natural Gas Futures.

On the third ECC Business Day before the beginning of the delivery period, each open position in a Year Future is replaced by equivalent positions in the three Month Futures for the delivery months from January through to March and the three Quarter Futures for the second through to the fourth delivery quarter whose delivery periods together correspond to the delivery year.

On the third ECC Business Day before the beginning of the delivery period, each open position in a Season Future is replaced by equivalent positions in the three Month Futures for the delivery months from October through to December (Winter-Season) or the three Month Futures for the delivery months from April through to June (Summer-Season) and the respective following Quarter Future.

On the third ECC Business Day before the beginning of the delivery period, each open position in a Quarter Future is replaced by equivalent positions in the three Month Futures whose delivery months together correspond to the delivery quarter.

## 3. Power Futures

### 3.1 Final Settlement Day

The following are the final settlement days

- for **financial power futures** (Month Futures): The ECC business day after the last trading day; if the right to physical fulfilment is exercised, two ECC business days before the beginning of the delivery period.

Credits and debits are effected in accordance with the more detailed provisions in the Clearing Conditions on the ECC business day after the final settlement day.

### 3.2 Final Settlement Price

#### 3.2.1 Currently not available

#### 3.2.2 Financial Power Futures

As a rule the respective final settlement price is determined with the help of an index as determined by an Index administrator which is derived from the average of all auction prices of all traded day-ahead hour contracts for the respective market area and for the respective delivery time (base/peak) during the respective delivery period.

Currently, the final settlement price for the market area:

- Germany/Austria: is based on the respective spot market index as determined by EEX AG for this market area;

### 3.3 Currently not available

### 3.4 Fulfilment of financial Power Month Futures

The seller (buyer) is obliged to settle the difference between the price agreed and the higher (lower) final settlement price in cash. If the final settlement price is determined on a Saturday, Sunday or a holiday following a Sunday, cash settlement is only effected on the second ECC business day after the last trading day. The final settlement price for power futures can be negative.

## 4. Futures on Natural Gas

The buyer is obliged to accept the delivery and pay for the quantity of natural gas agreed upon during each delivery hour and/or day within the respective delivery period.

The seller is obliged to deliver the agreed quantity of natural gas during the entire delivery month on each delivery day.

### 4.1 Delivery and Acceptance of Delivery

The delivery and acceptance of delivery is effected, subject to the provisions contained in the Clearing Conditions, by submitting a nomination or schedule in accordance with the requirements of the respective Balancing Agreement, which comprises the underlying delivery transaction as well as the binding confirmation of the nomination or schedule by the respective Market Area Manager or Transmission System Operator (TSO). On every delivery day of the delivery period, only that part of the contract shall be delivered which has been defined for delivery according to the respective contract specifications.

### 4.2 Purchase Price

The purchase price for derivatives market transactions for all delivery days in the entire delivery period is the final settlement price. The final settlement price is the settlement price determined on the Last Trading Day (Month Future).

### 4.3 Optional physical fulfillment

Optional physical fulfillment means that positions in an EEX Natural Gas OTF Future can be closed in good time before the start of their delivery period by means of a corresponding offsetting transaction. Positions held beyond that point in time will be physically delivered in accordance with ECC Clearing Conditions.
