* The definite calendar for the remaining year 2012 will be finally determined at the beginning of November 2012.

** In this auction the remaining German EUAA quantity for 2012 is offered. The dummy is replaced by the offered volume when the total quantity for 2012 has been determined.

*** Minimum volumes subject to increases according to admission of further auctioneers

**** Put on hold under further notice: On 12 November 2012, Commissioner Hedegaard announced the intention to defer enforcement of the requirement under the EU Emissions Trading System for airlines to surrender allowances in April 2013 for emissions from flights into and out of Europe during 2012. The legislative process to put in place this derogation is on-going. Such derogation will affect the volume of aviation allowances to be auctioned.

Tuesday and Thursday are reserved dates for the auctions of the EU.

ANNEX 1 - Adjustments to the auction calendar

The following conditions provide for adjusting the volumes of individual auctions:

1. Delayed appointment, admission or recognition of auctioneers

The allowances to be auctioned on behalf of a Member State or EEA-EFTA State¹ shall be withheld from the auctions whenever that Member State or EEA-EFTA State has not appointed an auctioneer (according to Art. 22(5)) Auctioning Regulation) or the auctioneer is not admitted by EEX and recognised by ECC.

Similarly, the allowances to be auctioned on behalf of Poland or an EEA-EFTA State shall be withheld from the auctions whenever that State has not concluded a contract with EEX that is mutatis mutandis identical to the contract between EEX, the European Commission and the 24 participating Member States. Furthermore, the allowances to be auctioned on behalf of an EEA-EFTA State shall be withheld from the auctions pending the amendment of the relevant annex of the EEA Agreement to incorporate Commission Regulation (EU) No 1193/2011 of 18 November 2011 (the 'Registry Regulation').

Any allowances that have been withheld from the auctions due to such delay shall be auctioned as from two weeks of the fulfilment of the relevant conditions. As from that moment, these allowances shall be evenly distributed over the next scheduled auctions as follows:

- a. In the case of general allowances, the number of auctions over which these withheld allowances shall be evenly distributed shall equal four times the number of auctions at which the auctioning of these allowances was withheld (*For example:* The sum of general allowances of a Member State withheld from 4 auction dates will be evenly distributed over the next 16 auctions as from two weeks following the auctioneer's admission to the auction platform.)
- b. In the case of aviation allowances, the number of auctions over which these withheld allowances shall be evenly distributed shall equal two times the number of auctions at which the auctioning of these allowances was withheld. (*For example:* The sum of aviation allowances of a Member State withheld from 4 auction dates will be evenly distributed over the next 8 auctions as from two weeks following the auctioneer's admission to the auction platform.)

2. Delay of auctions

In case the first auction is delayed, the volumes will be evenly distributed over the remaining number of auctions.²

3. Cancellation of auctions

In case an auction is cancelled according to Auction Regulation Article 7(5) (i.e. the total volume of bids falls short of the total volume of auctioned allowances), Article 7(6) (i.e. the auction clearing

¹ State that is a member of the European Free Trade Association (hereafter "EFTA") that forms part of the European Economic Area (hereafter "EEA")

² Without prejudice to any minor deviation for the last auction of general allowances and aviation allowances respectively in view of rounding.

price is significantly under the price on the secondary market) or Article 9 (i.e. other circumstances preventing the conduct of the auctions), the volumes will be distributed as set out in the Auctioning Regulation under Article 7(8) and Article 9, namely:

- a. In case of General Allowances, the volumes will be spread evenly over the next four scheduled auctions.
- b. In case of Aviation Allowances, the volumes will be spread evenly over the next two scheduled auctions.

As set out in Article 45(5) of the Auctioning Regulation, in the event of a failure of settlement the allowances concerned shall be auctioned at the next two auctions scheduled.

Additional notes

The adjustments provided for above may result in spreading the volumes over auctions to be conducted in 2013 and, for this purpose; a number of additional auctions of aviation allowances valid for the 2012 trading period may be foreseen. This will be provided for in the auction calendars for 2013.

Article 14(1) of the Auctioning Regulation provides for various situations where the present auction calendar may need to be modified, but where the precise manner in which the modification is to be implemented is not provided for in the present auction calendar. In such situations, EEX will determine and publish an adjusted auction calendar.
