

EEX Natural Gas Reference Prices

Publication of the European Gas Index (EGIX) to increase transparency on the market

Veröffentlichung des European Gas Index (EGIX) für mehr Transparenz und Rechtssicherheit am Markt

02 September 2021

Summary

With the introduction of EGIX in January 2011, EEX Group has established a transparent and easy understandable reference price for the gas market. Based on market prices, EGIX can be easily integrated in gas supply contracts and is suited to gradually replace prices based on gas substitutes such as oil or coal.

This document displays the monthly and yearly average of the “EGIX Germany”. The daily EGIX values are also available on the EEX-Website at <https://www.powernext.com/futures-market-data>

Zusammenfassung

Mit der Einführung des Gaspreisindex EGIX etablierte die EEX-Gruppe im Januar 2011 einen transparenten und einfach ermittelten Referenzpreis für den Gasmarkt, der als marktbasierende Alternative zu Lieferverträgen auf der Basis von Erdgassubstituten (z.B. Öl oder Kohle) in Lieferanten- und Kundenbeziehungen integriert werden kann.

Dieses Dokument enthält die Monats- und Jahresdurchschnitte des „EGIX Germany“. Die täglichen EGIX-Werte finden Sie auf der PWX-Website unter folgendem Link:

<https://www.powernext.com/futures-market-data>

“EGIX Germany” is calculated on the basis of trades concluded on the exchange in front month contracts for the market areas NCG and GASPOOL.

With the publication of EGIX, EEX Group is supporting the efforts by the European gas industry to find pricing mechanisms in line with the market in the context of the changing competitive environment in order to achieve a fair balance of interests between market participants. This contributes to a further strengthening of the confidence which the market participants and the interested public have in the gas industry.

Der „EGIX Germany“ wird auf Basis börslicher Handelsgeschäfte in den jeweils aktuellen Frontmonatskontrakten der Marktgebiete NCG und GASPOOL berechnet.

Mit dem Index unterstützt die EEX-Gruppe die Bemühungen der europäischen Gaswirtschaft marktkonforme Preisbildungsmechanismen im sich verändernden Wettbewerbsumfeld zu finden, um einen fairen Interessenausgleich zwischen den Marktparteien zu erreichen. Dies trägt dazu bei, das Vertrauen von Marktteilnehmern und der interessierten Öffentlichkeit in die Gaswirtschaft weiter zu erhöhen.
